RIFHES

BIO

Born in Guadalajara City, Rihfes has become a prominent figure in the Mexican electronic music scene. It all began in 2001 when he discovered drum and bass music thru a friend from London. He was instantly captivated by the genre's fast-paced beats and intricate rhythms, and unknown to Mexico's audience, he set out to introduce the genre to his hometown.

In 2003, he started TECHKILLA, his own record label, which quickly became a platform for underground drum and bass music in Mexico. Over the years, he has released numerous EPs and albums on his label and collaborated with other artists in the scene.

As a DJ, he has performed at major music festivals in Mexico and underground parties, sharing the stage with some of the biggest names in electronic music. He has also been recognized for his production skills, with his tracks receiving support from top DJs around the world.

In recent years, Rihfes has expanded his musical repertoire, incorporating live instrumentation into his performances. He now performs a live act that features his electric guitar and synthesizers, creating a unique blend of cyberpunk-inspired music that pushes the boundaries of electronic music.

Despite his success, Rihfes prefers to be away from the gossip and remains committed to supporting the underground electronic music scene in Mexico as he continues to use his platform to showcase up-and-coming artists. With his innovation spirit and musical talent, he has cemented his place as a trailblazer in the Mexican electronic music scene.
